

ID: 130852.

Study: COVID-19: Healthcare Worker

Bioresource: Immune Protection and
Pathogenesis in SARS-CoV-2.

NCT Number: 04318314.

Document Date: Updated on 01/05/2021.

Title of document: List of current published, in press, preprints and under review articles written from the study.

Published/In press:

1. www.covidsortium.com Website.
2. [Wellcome open](#): Study design.
3. [PLOS1](#): academic research impact of COVID-19
4. [Lancet](#): Serial falling PCR levels in Healthcare Workers
5. [Circulation](#): Myocardial injury from COVID-19.
6. [Lancet](#): follow-up PCR positivity levels in in Healthcare Workers
7. [Science Immunology](#): T cell, serology and neutralising antibody heterogeneity in mild disease.
8. [European Heart Journal](#): Patterns of myocardial injury from COVID-19.
9. [Lancet E-BioMed](#): Antibody dynamics in mild SARS-CoV-2 infection.
10. [JACC Imaging](#): Cardiovascular late effects of mild disease.
11. [Lancet](#): Second booster vaccine not necessary after prior COVID-19.
12. [E-ClinMed](#): Infection risk, BAME and health role.
13. [Science](#): Impact of vaccination on T and B cell response to variants: (in press, fast track).

Preprints/under review

14. [Viral transcriptomics paper](#): Under review Lancet microbe.
15. [Whole genome transcriptomics](#) signature mild disease.
